BRICK SENTINEL

The colorful steep cliffs of Gay Head on Martha's Vineyard are topped by the brick lighthouse on our cover. This light stands tall enough to be seen many miles away and warns of a tricky passage through the reefs and shoals outside of the cliffs. The Gay Head clay face is a muted colorful sight to visitors and to those who pass by sea.

The photo below is the view from the top of the cliff. Photos, DCJ

This is a debt exclusion and will, if passed, enable the town to borrow on a 10-year note, with the tax increase of three cents per thousand for fiscal 1988; from fiscal 1989 for 10 years, the increase will decrease from 34 cents to 18 cents per thousand.

allowed to assess an additional $94,591 for the fiscal year beginning July 1st?"

This question may cause some confusion to the voters, noted the Town Accountant. This question, although basically an override and requiring only a majority vote because the amount requested $94,591 is less than the $94,746 exempt under Proposition 2½. The town is allowed to raise approximately $94,746 over the previous year's levy. Anything over $94,746 requires a 2/3 vote. This question, if passed, will result in a 36 cents per thousand increase in the tax rate.

The Town Accountant said, "These funds, if voted, can be used for any town purpose and is not earmarked for the schools, although this was the intention voiced at the annual town meeting. The question will have to be placed on a Special Town Meeting warrant before it can be spent for any specific purpose." The Board of Selectmen also noted this is their intention.

coming in by July. Mr. Daly informed Selectmen last Tuesday that so far only 13 calls have been received from Mattapoisett residents with complaints of mosquitoes. When a call is received the complaint is usually taken care of within two days, he added.

The director said there are 42 species of mosquitoes in Plymouth County, including two found in Mattapoisett which are particularly ferocious. These two species live mainly in the saltmarshes and cattail swamps. They will travel for miles from Middleboro to Mattapoisett for a bite, he commented jokingly.

Mr. Daly gave Selectmen a phone number for the public to call if they have a complaint -- 585-5450 weekdays from 8 a.m. to 4 p.m.

In his oral report, Mr. Daly said his department has done spring digging work in the marshes. After receiving a permit from the Army Corps of Engineers to dig in the marshes, work was completed on Mattapoisett Neck, a 10-15 acre site near the Fairhaven line; and also they have had equipment in the Shell Beach area and Antassawamock site. He said that in the spring they try to get in the mosquito breeding grounds. In the larval stage, the mosquitoes stay awhile; whereas, in the summer they tend to develop into adults too quickly. we want to be productive."

Selectman William Hubbard said an area of concern is on Reservation Beach area and Reservation Golf Club area. He noted permission must be obtained for the golf club spray. Mr. Daly said he would attend to that immediately.

Mr. Daly also pointed out that people have created their own breeding sites. He urged people to get rid of old tires or anything that contains stagnant water and drain out pools of water that harbor larvae. He described the larvae as black and wiggly and are seen on the surface of the water.

In reply to a question from Selectman Frank Suzan, Mr. Daly explained "there is no evidence we've seen or heard about that the AIDS virus is transmitted by mosquitoes."

In other business, Selectmen:

RECEIVED A NOTICE from the State Division of Marine Fisheries that DEQE has extended for 30 days the prohibited classification of "the waters and flats and all tributaries of the Mattapoisett River north of a line drawn across the mouth of the Mattapoisett River".

Selectman Hubbard said the cleaning up of the north part of the Mattapoisett River has taken much too long and has been delayed because of the problem created by animals grazing on the banks of the river in the northern section close to the Rochester line, among other problems. ester Music (F.O.R.M.) sponsored a very well attended Pops concert. Many parents and friends enjoyed a concert by Senior and Junior High chorus and band members. Sue Layton and Rhon Vogen did a wonderful job preparing their students for this program.

The "new" Junior High Marching Band marched in the Rochester Memorial Day Parade and the Senior High Marching Band marched in both the Marion and Mattapoisett parades.

Thank you to the Keenes for hosting the after-the-parade cookout for band members.

Friends of Old Rochester Music encourages you to support the upcoming override and vote yes on Question 5. Music is an important part of our children's well-rounded education and is also something that enriches the entire community, young and old. We feel we have an excellent music program in our school and would like to see it continue.

the Fairhaven Savings Bank. On May 21st Mrs. Porter presented a banking unit to the class. She explained bank security and the different types of accounts that are available. Counterfeit money and safe deposit boxes were also discussed. The children were excited about learning how to make out a check. As a follow-up, Miss Aiken's class was invited to the Mattapoisett branch of the Fairhaven Savings Bank to see the bank in operation. Ms. Jean Holt explained the 24-hour teller machine, the night deposit drop, and the security system. The children were very impressed with the vault and the currency counter. The banking unit proved to be a very worthwhile learning experience.

QUESTION:

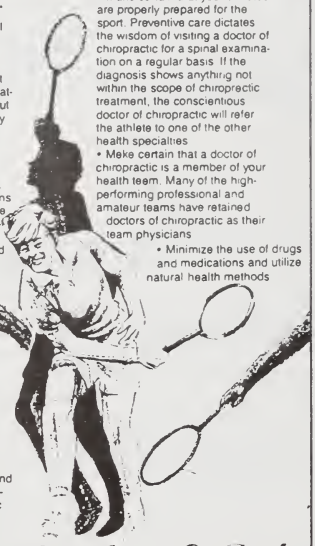
WHY SHOULD ATHLETES HAVE CHIROPRACTIC SPINAL MANIPULATION?

ANSWER: Because it can help their performance.

Many amateur and professional athletes are sidelined with injuries that could be avoided. Others sit it out on the bench because their injury just doesn't seem to respond to ordinary treatment. Still others are playing, but at less than their peak efficiency simply because their structural system is not in balance.

Progressive coaches and trainers are realizing that pain-killing drugs are not the answer. Drugs and medications merely cover up the symptom, deceiving the player into actions which could make the injury more serious.

Probably more than any other health profession, chiropractic's approach to health closely relates to the needs of the sports participant. Most sports involve body contact, leverage, fast starts and stops, and positioning that places an unusual strain on the back and structural system. Doctors of chiropractic consider the human as an integrated being, giving special attention to spinal mechanics and neurological, muscular and vascular relationships. Chiropractic is a natural health care method that stresses the importance of keeping all the systems of the body functioning efficiently, so the player enjoys peak performance, a minimum injury risk and fast recuperative powers.



Here's what you can do:

- Make certain that your athletes are properly prepared for the sport. Preventive care dictates the wisdom of visiting a doctor of chiropractic for a spinal examination on a regular basis. If the diagnosis shows anything not within the scope of chiropractic treatment, the conscientious doctor of chiropractic will refer the athlete to one of the other health specialties.
- Make certain that a doctor of chiropractic is a member of your health team. Many of the high-performing professional and amateur teams have retained doctors of chiropractic as their team physicians.
- Minimize the use of drugs and medications and utilize natural health methods.

Letters to the Editor

The members of the Mattapoisett Firefighters' Association would like to thank the voters of the Town of Mattapoisett for the department's new Pierce Arrow fire engine. It replaced a 1954 Ward LaFrance fire pumper which served the town for many trouble-free years, but age has finally caught up.

We are now faced with the same problem with the department's 1964 Ford pumper. The frame has become very rusted and is very unsafe for personnel to ride and work on. This unsafe condition carries over to you, the home and property owner who deserves to be protected, but without proper equipment it is very difficult to do our job in a safe and professional manner.

We need your vote at the next special town election on June 23, 1987. Again, thank you.

Ronald Scott, President
Mattapoisett Firefighters' Association.

LETTER TO THE EDITOR

Today, we live in a rapidly changing society which has set the requirements of a well-educated person at the highest level in history. No longer is our culture satisfied with its citizens just learning how to read, write and handle simple arithmetic. Our young people are being asked to operate complicated computers and program information for public consumption. Considerable emphasis has been placed on the better understanding of human relationships with the hopeful goal of eventually solving the riddles posed by cities, poverty stricken Americans and international neighbors.

You as voters of Mattapoisett are being asked to make decisions concerning the course education should take in our town. You will have to determine whether youngsters from Mattapoisett, Marion and Rochester will be afforded an enriched opportunity or provided only the bare essentials of education.

Our generation was provided a good public high school education so that we could attend the college of our choice or compete in the job markets.

Our parents and grandparents and citizens of the towns we grew up in paid for that opportunity through their taxes.

We owe that same opportunity to the children of Mattapoisett ! It is our responsibility to support our public education system. It extends beyond the period of time when our children attend the schools. It is our responsibility as long as we expect America to be a great country.

We urge you to vote YES for Question 5 on June 23. This increase will have an impact of .36 cents on our tax rate for one year only. A home assessed for $100,000 would pay $36.00 more next year. A small price to pay for the most valuable opportunity we could offer our children.

latest cuts were in areas of repairs, maintenance and late bus services.

Over the last several years, we have reduced administrative staff, but further cuts in this area can not be done. We have lost a Guidance Director, the Assistant Superintendent, and the Assistant Principal at the Junior High School, and we now run a multi-million dollar operation with four administrators and a clerical staff of six.

In the aftermath of Proposition 2½, we cut an industrial arts teacher, a science teacher, 4 English classes, 2 business classes, 2 social studies classes and 2 foreign language classes. We are trying to maintain the quality of education and to have those new areas, such as computer programs, that will prepare our children for the years ahead.

The services that we offer in the end will depend on the support the citizens and taxpayers give us at the town elections.

ORR Girls' Track

HONORED AT BANQUET

Last Tuesday evening the ORR Girls' Track Team was honored at their family banquet. Head Coach Joao Rodriques opened the evening by saying thank you to the parents for all their support throughout the season. The parents have supported the girls in spirit and financially by supplying additional equipment, Senior Awards, Trophies, individual needs of athletes, an additional coach, decorations for the banquet, and the trip to New York by those exceptional athletes.

The dinner was "potluck" as families prepared their favorite dishes to feed 310 people in attendance.

Dale Bradshaw presented a slide show of the season set to music. It was a tremendous hit with everyone.

Coach Carl Vaughan talked about the pride he felt all season, the fine efforts of many girls, and

the need to continue to believe in yourself.

Coach John Alves spoke of the horrible weather during the early part of the season, and how much harder the girls had to work in order to catch up with those teams who have Winter Track programs. He was greatly impressed by the improvement in such a short amount of time.

Coach Robert Simmons welcomed being part of the program and commented to parents on how wonderful a job they had done in raising such a fine group of girls.

Coach Joao Rodriques then commented on the season that gave ORR the South Coast Conference Championship, second in the State Meet, new school records, league records, meet records, 52 State Medals, 38 State Ribbons, 72 Invitational Meet Ribbons, and Awards from New York. But, the PRIDE of this team is based on its sisterhood and its ability to motivate each athlete to try and reach her greatest potential. The team motto is "Winning is Self-Improvement" and everyone is encouraged in

FLORAL ARRANGING CLASS

On Saturday, June 20th, from 9 to 10:30 a.m. there will be a presentation at the Coachman's House of the Rotch-Jones-Duff House & Garden Museum on floral arrangements, taught by Jessie Cardin. The cost of the class is $3., $2. members, and the location is at the corner of Madison and 7th Streets in New Bedford.

Daily classroom, laboratory and field sessions are included. In addition, students will prepare collections of invertebrates for their own use.

According to Lloyd Center Executive Director Dr. Alan Hankin, "this course is an example of the opportunities which we offer for students to increase their understanding of the marine environment."

Interested students can contact the Center at 990-5050 during regular business hours.
